Fax:	
	Send LM More Information

Listed Currency:
USD - United States, Dollars
Price Per Carat (US): \$480
Total Price (US): \$4,194.40

Indeed, what better way to impress a client than to have a bespoke Tanzanite portfolio? One which is both free of charge, and one which will act as an invaluable point of reference and indeed sale for your valued clientele!

I would be happy to do the following for you free of charge:

- Change all of the prices of the Tanzanite to be in another currency.
- To insert a specific price that you want to list a specific stone for.
- Insert your company logo in the header or footer of the page.
- Change the contact details to match those of your company.

If this is of interest to you please provide me with the following:

- Company Logo as a .bmp or .jpeg (if applicable)
- Desired Currency (If applicable)
- Desired Contact Details (e.g. contact name, address, telephone number, email/website)
- Specific prices for each stone.

Latest News & Developments:

As you are no doubt aware the wholesale price of Tanzanite has risen approximately 25% during the past month (September 2007), and as such our larger carat size Tanzanite portfolio reflects this change (although presently our smaller carat size portfolio remains unchanged).

Needless to say our price coupled with the exceptional color and clarity of our stones still make us one of the leading Tanzanite suppliers in the world.

Building Long Standing Trusting Business Relationships:

As trust and reliability, coupled with effective communication are some of the key fundamentals of successful business, we would just like to remind you that we are here to discuss any needs or requirements you may have, and indeed to assist you in any way we can.

Kind Regards

Josh Robbins
